

## **Procedure - Interscholastic Activities**

### **Coach's Duties**

In accordance with district policy and the coach's job description, the coach has the duty to:

**A. Instruct Participants**

The coach should employ the latest methods and proper instruction when working with students to develop motor skills. If an injury occurs while using an improper instructional method, the district and its employees may be liable for negligence.

**B. Warn Participants**

The coach should inform all athletes and their parents of the inherent risks involved in participation in the particular sport, including the very small risk of infection with a blood-borne pathogen. The coach must describe, using a variety of methods, the catastrophic and common non-catastrophic injuries unique to the sport.

**C. Supervise Participants**

The coach will create a daily plan, showing how the coach plans to conduct general supervision of the sport, and how he/she will supervise specific drills and other components of the daily practice. Adequacy of supervision should be reviewed in terms of quality and quantity and should include factors such as: the age of the students, the size of the students, the equipment involved, the maturity level of the students, the first aid equipment and training available, the appropriate certification of supervisors where required, and the safety training of the personnel involved.

**D. Provide Safe Equipment and Facilities**

Equipment should be properly fitted and maintained. Athletes should be instructed on how to conduct a daily inspection. Facilities should be free of hazards and inspected regularly.

**E. Maintain Records of Injuries**

A report should be completed for each accident. Injury reports should be maintained for a period of five years after the student's 21st birthday.

**F. Assess Fitness of Participants**

The coach will assess the physical fitness, the medical condition, and the skill level of athletes prior to participation in sporting activities.

**G. Provide Equal Protection and Due Process**

While participation in co-curricular activities is a privilege, a student whose participation will be terminated based on an alleged violation of the conduct code must be afforded the opportunity of a fair hearing (Extra Curricular Code of Conduct Section 7: Appeal Process for Students).

**H. Transport Athletes Safely**

A coach has a duty to see that athletes are safely transported to and from contests and to and from practices if practices are held at sites other than the immediate school grounds.

**I. Group Participants**

The coach has the duty to employ a recognized system of grouping for participants in a particular sport that will avoid unequal and unsafe participation. The system of grouping will be based upon skill level, age, maturity, sex, size and experience.

**J. Foresee Danger**

A coach should be able to reasonably anticipate foreseeable dangers that may occur, and take precautions protecting the children in his/her custody from such dangers.

**K. Protect From Loss**

A participant is required to present evidence that he/she is covered by an accident policy. A blanket catastrophic ("no fault") insurance provides coverage for serious injuries.

The duties listed above are not meant to be comprehensive. In carrying out the duties of the assignment, a staff member is expected to act as a reasonable professional would act under similar circumstances. A staff member who supervises a sports activity is expected to know the intricacies of the activity that he/she is leading.

**Summer Sports Activities/Clinics**

Rules governing out-of-school and/or out-of-season student sports participation are as follows:

- A. An out-of-season practice is defined as the teaching phase of a sport to any present, past or future squad member while as the student is in grade 7-12 during the summer.  
  
A school staff member who sponsors, promotes or directs such activities during the summer vacation will clearly indicate that he/she is operating independent of the school district. As such, the school district will be free of liability associated with the activity.
- B. Students will be advised that participation in a commercial summer camp or clinic or other similar type of activity will not begin until the conclusion of the final WIAA state tournament of the school year. Participants in a fall school sports program may not attend any summer camp/clinic in that sport after August 1 until the first fall sports turnout. The school should announce by school bulletin that summer sports camp/clinic is neither endorsed nor sponsored by the district.
- C. A coach (contracted or volunteer) may not sponsor, promote, coach or direct activities which resemble out-of-season practices or contests in the sport they coach to any of their squad members or future squad members (grades 7-12) until after the school year's final WIAA state tournament has ended.
- D. The use of the school bulletin board, public address system or school newspaper for promotional purposes to announce sports clinics/camps will fall within the same guidelines as applied to other commercial endeavors.
- E. School facilities to be used for summer activity and/or sports camps may be rented consistent with the rates, rules and regulations applicable for other commercial uses.

A user will hold the district free and without harm from any loss or damage, liability or expense that may arise during or be caused in any way such use of school facilities. Authorization for use of school facilities will not be considered as endorsement of or approval of the activity group or organization, or the purposes it represents.

**Athletic Code**

The opportunity to participate in the interscholastic athletic program is a privilege granted to all students of the district. Participants in this voluntary program are expected to conform to specific conduct standards established by the principals and athletic coaches.

A student who is found by a staff member of the student's school to be in violation of any rules is subject to removal from the team. A student who has allegedly violated one or more of the conduct rules may appeal a disciplinary action as specified in this code.

The following rules will be applicable for 365 days a year:

An athlete who is found to be in possession of alcohol or tobacco products will follow the regulations listed in the Extra Curricular Code of Conduct Section 4: Procedures.

**B. Use and/or Possession of Illegal Chemical Substances or Opiates**

An athlete who is found to be in possession of illegal chemical substances (including marijuana/cannabis) or opiates will follow the regulations listed in the Extra Curricular Code of Conduct Section 4: Procedures.

**C. Physical Appearance**

An athlete will maintain the dress and grooming standards of the student handbook.

**D. Unsportsmanlike Conduct**

An athlete will exhibit appropriate conduct in practices and/or contests (Extra Curricular Code of Conduct Section 5.4 General Considerations) The first offense will result in a verbal warning.

**E. Attendance at School**

An athlete will attend school for at least one half day on the day of an athletic contest. If an athlete receives an unexcused absence for any portion of the day, the athlete will be ineligible to participate in the activity/contest on that day. If excused, the athlete may participate if he/she was in attendance for one half day or more.

**F. Absence from Practice**

An athlete is expected to be in attendance at all team practices unless excused for illness or by prior approval.

**G. Violation of Law on School Grounds**

When a student is found guilty of an offense committed while on school grounds or at a school activity, the corrective action will depend upon the nature of the violation.

**H. Repeated Offenses**

If a student repeatedly violates one of the above rules, he/she may be removed from the team for the remainder of the sports season.
